

EYE PATCHES

Fun Patch Instructions: <https://www.youtube.com/watch?v=hHKLh9Qkp50>

Kay Fun Patches – two sizes, Child and Adult

Kay Fun Patches are re-usable, fabric occlusion patches to treat amblyopia (lazy eye). The patches fit comfortably and snugly for most sizes of metal and plastic spectacles to provide effective occlusion.

The patches come in a range of colour designs to suit any child, and most patterns are universal for either the right or left eye. They are washable and very cost-effective.

Made in the UK from hypo-allergic and breathable materials using water based inks and dyes for graphics.

Available in two sizes: regular and large. Regular measures 116mm by 55mm (widest). Large measures 140mm by 62mm (widest)

There are designs for both boys and girls. There are also plain ones for kid to draw their own designs on them.

Paediatric 40x40mm - EZPATPB or EZPATPB

BLUR PATCHES

(BANGERTER FOILS)

These are a series of static cling patches with varying degrees of transparency for the treatment of amblyopia or lazy eye. They are cut to the lens shape and placed on the lens. Easily peel off when not required.

They are available in a sheet size: 215x105mm or a card size of 105x70mm

The "stickability" of the patch/foils is sometimes affected with lenses that have been non-stick "Teflon" coated. It is a matter of trial.

Snellen Visual Acuity Chart

(Blur Patch equivalents to the Bangerter Occlusion Foils)

1.0	20/20
0.8	20/25
0.6	20/30
0.4	20/40
0.3	20/80
0.2	20/100*
0.1	20/200*
<0.1	<20/300*
LP	A complete blur but allows light perception
00	Complete occlusion - no light perceived.

*Bernell equivalent blur patch

When ordering quote:

1. Sheet size i.e. sheet or card
2. Blur number (first column)
3. Quantity

Instructions:

1. Cut patch 1mm smaller than lens size,
2. Clean inside of lens with isopropyl alcohol
3. Wet the shiny side of the patch with warm water
4. Apply to lens working out water and air bubbles with soft tissue
5. Allow to dry
